

Permit for an Access Facility on
State of Texas Highway Right-of-Way within the
Extraterritorial Jurisdiction of the City of Round Rock, Texas

Permit Number _____

The City of Round Rock, hereinafter called the City, hereby authorizes _____
(Name of Property Owner-Permittee)

(Address)

(City, State, Zip) (Telephone No.)

hereinafter called the Permittee, to [] construct / [] reconstruct a _____
(construction entrance, commercial, industrial, private or public road/driveway) access facility

in _____ County, located as identified with

MAPSCO Panel # _____ & MAPSCO grid letter _____ plus the centerline point of access facility @ ROW by one of the below,

GPS Latitude _____ & GPS Longitude _____

or
Hwy # _____, Station # _____ (Left or Right) _____

Subject to the following:

- 1. The Permittee is responsible for all costs associated with the construction and maintenance of this access facility.
2. Design of facilities shall be as follows and as shown on the attached sketch, plans and details (11 x 17 size max.) and is subject to conditions stated below:
3. Proposed Access Facility (design, materials, and installation) shall be in compliance with the current CORR Access Management Plan for State Highways, Special Requirements for Installation, and the City's Development and Construction Standards (DACS) at the time of installation.
4. All construction and materials shall be subject to inspection and approval by the City.
5. Maintenance of facilities constructed hereunder shall be the responsibility of the Permittee. The City and/or State of Texas reserves the right to require any modifications, maintenance or repairs as may be necessary to provide protection of life or property on or adjacent to the highway. Design changes (including geometric, structural, and/or material) shall not be made without approval by the City.
6. The Permittee shall hold harmless the City and State of Texas and it's duly appointed agents and employees against any action for personal injury or property damage sustained by reason of the exercise of this permit.
7. Except for state regulatory, and state, county and city guide signs (shown in the approved documentation of this permit), the Permittee shall not erect or relocate any sign on or extending over any portion of the highway right of way, and vehicle service fixtures such as fuel pumps, vendor stands, or tanks shall be located at least 12 feet from the right of way line to ensure that any vehicle services from these fixtures will be off the highway right of way.
8. The City and/or the State of Texas reserves the right to require a new access facility permit in the event of a land use change or change in access point's traffic volume or normal vehicle service types.
9. This permit will become null and void if the above referenced access facility is not fully permit compliant within six (6) months from the issuance date of this permit.
10. The Permittee will contact the City, at (512) 218-5555, at least twenty-four (24) hours prior to beginning work authorized by this permit.

Date of Issuance

Daniel Lynn Halden, PE, City Engineer

Property Owner: The undersigned is the authorized agent to sign on behalf of the Permittee and warrants that the Permittee and its agents agree to comply with the terms and conditions set forth in this permit for construction of an access facility on the highway right of way.

Access Facility Regulations

The City, in recognition of its responsibility for issuing permits for access connections to public highways within its jurisdiction, has adopted access facility standards to accomplish a coordinated development between highways and abutting property. For this purpose, the booklet entitled "City of Round Rock Access Management Plan for State Highways", was published and adopted, setting out policies to regulate said access connections.
