

# Round Rock by the Numbers

## FY 2016/17 - Second Quarter - 3/31/2017

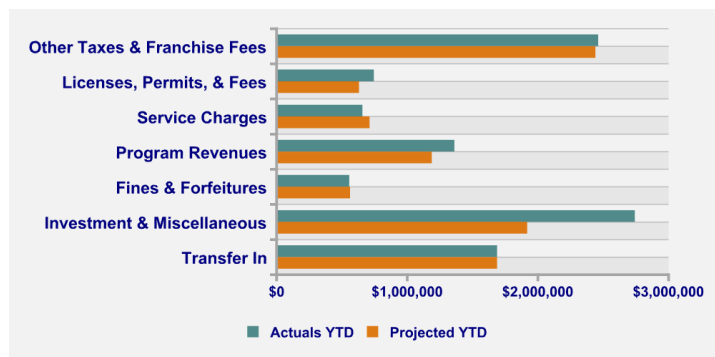

### Sales Tax Actuals vs. Projections - Gen Fund Only

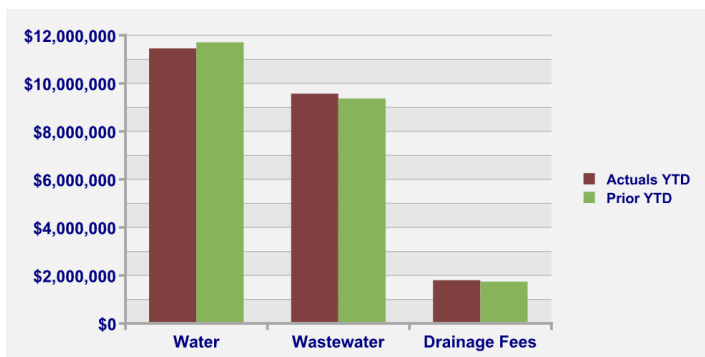

### Rolling 12 Month - General Fund Sales Tax

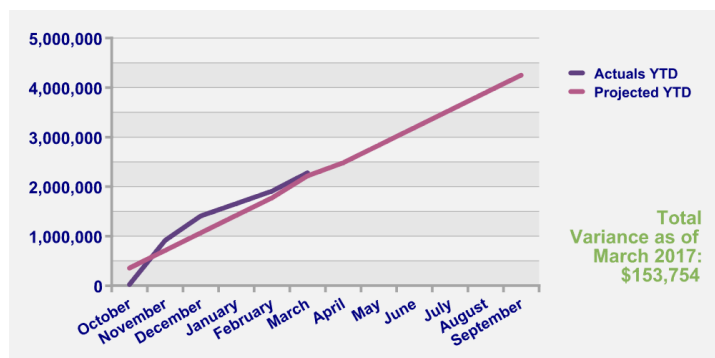

### Other General Fund Revenues

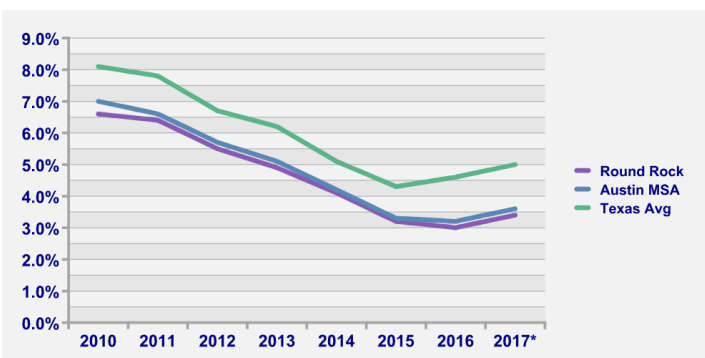

### Utility Revenues

### HOT Revenues

### Unemployment Data

### Notes & Comments

- Sales tax receipts are greater than projected year-to-date, largely because non Dell receipts have come in stronger than budgeted.
- Most property tax collections occur from November through January each year. Collections were strong in 2016/17 and staff expects budget to be met.
- Utility revenues are trending in line with budget and are projected to end the year slightly above budgeted amounts.
- Hotel occupancy tax and Venue tax revenues are trending in line with budget and are projected to end the year slightly above budgeted amounts.
- Overall for GF Revenues – In addition to strong sales tax and property tax collections, all other General Fund revenues appear strong and on target overall. Licenses, Permits and Fees are well ahead of budget projections due to continued strong growth in commercial and residential development.
- Current year projections have been completed. All departments are expected to end the year at or slightly below current year budgeted amounts.
- Residential sewer winter average season is complete. The average residential customer went from 5,800 to 6,000 gallons of average sewer usage.
