Item Summary:

The amendment is for a 23.78 acre portion of PUD No. 23, which is located along FM 1431 and is zoned for limited commercial uses, including retail sales, a day care, a drug store/pharmacy and restaurants. Offices and town homes are also allowed. The exterior finish of the buildings and screening walls will be native stone masonry, similar in color and quality to the native stone used within the Mayfield Ranch subdivision. The signs on the site are limited to monument type signs with a native stone masonry base.

The significant changes to the PUD include a shifting of the location of the drug store/pharmacy and revising the allowable uses to eliminate the town homes and add senior group living. The PUD has also been revised to specify the size and height of the signs.

Signs may be either individual monument signs for one business or multi-tenant signs for three or more businesses. Individual monument signs may be a maximum of 10' high, with 80 square feet of display area. Multi-tenant monument signs may be a maximum of 20' high, with a 160 square foot display area. Electronic digital displays will be allowed, as a percentage of the total display area. Under the current sign regulations, an individual monument sign could be a maximum of five feet 5' tall, with 50 square feet of display area and a multi-tenant monument sign could be a maximum of 30' tall with 200 square feet of display area. No electronic digital displays would be allowed.
