The TIA shall analyze the impact of potential development on all of the Property.

6.2. Driveway connections to adjacent development shall be provided parallel and

adjacent to any public right-of-way. Such connections shall be clearly identified on any submitted site plan. All driveway connections shown on a site plan shall be constructed and stubbed, and future development of adjacent property shall complete a connection to any existing stub. Notwithstanding the provisions of this section or of Section 36-107 (f) of the Code, the Zoning Administrator may waive the requirement for a driveway connection in those cases where unusual topography, site conditions or incompatible uses would render such an easement to be of no useable benefit or a detriment to adjoining properties.

6.3. Exhibit "C" illustrates the general location of the future extension of Oakmont Drive through the Property, from Cypress Boulevard to Sunrise Road, in relation to "Development Parcel A" and "Development Parcel B". The Owner shall construct the extension of Oakmont Drive prior to the issuance of a site development permit by the City for any lot within "Development Parcel B", which would either:

9. STORM WATER MANAGEMENT

Storm water management (detention or water quality) shall be provided by a maximum of four (4) storm water facilities located on the Property. Any combined facility serving multiple functions (e.g., a detention and water quality facility) shall be counted as a single facility for the purposes of this section. Notwithstanding the provisions of this Section, any underground facilities shall be excluded for purposes of determining this limit.

10. TREE PROTECTION AND PRESERVATION

- 10.1. For the purpose of applying Section 43-25 of the Code, the entire Property shall be considered the development site with regard to the tree survey, tree protection plan, and tree replacement plan. The Owner shall prepare the required survey and plans for the Property and shall provide updated information as necessary to the City as development occurs on the Property.
- 10.2. Section 43-25 of the Code regarding tree replacement requires that each replacement tree be planted on the same subdivision or development site from which the tree was removed. For the purposes of this Plan, the entire Property shall be considered as the same development site and, as such, shall be eligible for the planting of replacement trees from any portion of the site being developed. The Owner shall cause a cumulative record to be maintained of the location of any replacement trees, a current copy of which shall be submitted with each site development permit submittal.

11.1. Private Open Space

Private open space containing three (3) acres or more, generally located as indicated on **Exhibit "B"**, shall be provided for the common use of the residents and other users of the development.
