

Leak Alert

Dear Round Rock Water Customer:

We wanted to let you know that you may have a water leak at your property. Our water metering system has alerted the City's Utility Billing Office that **there has been water flowing through your water meter for over 48-hours, without stopping.** If you are not aware of any water being used for over 48-hours, we encourage you to check your property for leaks.

Some places to check are toilets, for leaking flappers, swimming pool automatic fills, and sprinkler system line breaks or leaking valves; however it could be anything that uses water at your home.

For Water Billing Questions, contact:
Utility Billing at 512-218-5460

For water conservation information, contact:
jwoods@roundrocktexas.gov or 512-671-2872
