2008 Enterprise Drive, Round Rock, TX 78664

CHECKLIST

- Identify the Standard Products List to which the product would be added.
- Identify the City of Round Rock Standard and/or Standard Specification that governs the product.
- Describe the product, providing technical specifications and catalog information.
- Provide copies of all applicable AWWA, ASTM, ANSI, NFPA, or other related standards or specifications that govern the product.
- Provide evidence of NSF registration for products to be used in a potable water system.
- Provide test results showing compliance with applicable standards, including independent laboratory test results, as necessary.
- Provide manufacturer's installation procedures for the product.
- List maintenance requirements, special equipment/ procedures and recommended maintenance schedules.
- List project owners (public utilities in Texas preferred) who have used the product. Include project name and location, project owner's contact name, address, telephone number, and product application and number of years in use.
- Provide material safety data sheet (MSDS), if applicable.
- Describe recent product revisions or improvements.
- Explain how the product would benefit City of Round Rock in terms of prolonged service life, reduced maintenance, and reduced life-cycle cost compared to products now in use.
- Include quality control program covering the manufacturing of the product. If manufacturer is ISO registered, just submit evidence of registration.
