

LOGAN STREET Connection Project

The City is currently designing the Logan Street Connection Project as part of the Round Rock Transportation Master Plan. This project will provide local residents with greater neighborhood connectivity and improved access for emergency vehicles by extending Logan Street to A.W. Grimes Boulevard.

Improvements Include:

- Constructing a two-lane extension of Logan Street to A. W. Grimes Boulevard with a bridge over Dry Branch Tributary 1
- Connecting Heritage Springs Trail to Logan Street
- Adding sidewalks on both sides of Logan Street
- Connecting trails to Logan Street sidewalks for improved walkability to school and recreation center

Community Involvement

The City of Round Rock will work with the community to provide updates and opportunities to share feedback. Please get involved or reach out if you are interested in this project!

- Attend a public open house meeting
- Visit the project webpage and sign up for updates
- Contact the team with comments or questions by phone or email or arrange an individual meeting

Timeline

Design of the project began in spring 2018 and will continue through fall 2019. This process will include public meetings in fall 2018 and early 2019. Construction is anticipated to begin no earlier than 2020.
