

Don't Think, Dance

By: Katherine Carrillo

Your silhouette dances in the shadows

The pastel lights hug your figure

When the world is upside down

The lyrics stray away

As the slow melody echoes

Your body moves like ocean waves,

Light steps

Quick movements

The troubles go away

The worries no longer there

Eyes closed as you move

A way to feel relief

From all that may trouble your head

Let the music take you away

Create a new world

Somewhere new

Those things you dream of

They all come true

The cruel reality fades away

Let go of the harsh truth

Make the music boom
