

Life doesn't frighten me at all

By - Tatyanna Reyes

White walls around me
Quietness everywhere
Life doesn't frighten me at all

No friends to be seen
No socializing with others
Life doesn't frighten me at all

Stuck at home with nothing to do
Hearing lawnmowers, dogs barking
Life doesn't frighten me at all

All i do is homework, eat and sleep
Trying not to get scared or worried
But yet life doesn't frighten me at all

I sit down on my phone
Worried, scared
On what is going to happen next in our lives
People are losing their jobs
Stores are closed
People are getting hungry
People are losing money
But deep down i know this will all go away

Life doesn't frighten me at all

Kids do school online
People socializes on the phone
But life doesn't frighten me at all

Just going outside to get food
We need to wear a mask to keep us safe
I'm not frighten at all

At home i stay six feet away from my mom
Just to keep me and her safe
But life doesn't frighten me at all

People may be scared of the CoronaVirus
But social distancing
And washing your hands helps
By keeping you and everyone else around you safe

We will meet with our friends on day
Even if it takes months
But we all have to be smart and prepared
To keep us and others safe from getting sick

Life doesn't frighten me at all
Not at all
Not at all

Life doesn't frighten me at all
