1 or 5 or 9
Wednesday & Sunday

4 or 8
Sunday & Thursday

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
1 20 days until the start of summer! Wait until summer fully hits before adding on a second watering day.	2	3	4 Spring Temps? Water once a week! While temperatures are still spring-like, one day per week of watering is plenty.	5	6	7
8	9	10	11 Is it looking cloudy? Pro tip: Turn your irrigation off if there is a greater than 50% chance of rain in the forecast.	12	13	14
15	16	17	18 Grow with the flow! Have you considered which plants will grow best in central Texas? Native plants need less water!	19	20 Happy First day of Summer! School is out but remember to water smarter, not harder. Follow the irrigation guidelines to save water.	21
22	23	24	25 Take advantage of irrigation rebates By making irrigation systems more efficient, we can reduce water use. Visit the Round Rock website.	26	27	28

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
		1 Happy Smart Irrigation Month Stay up to date on smart irrigation tips this month. Try watering for shorter periods with 2 or 3 start times.	2 Always look on the bright side Shady areas require less water than sunny ones. Reduce time watering zones that are mostly or fully in shade.	3	4	5
6	7	8	9 Happy Lake Appreciation Month Did you that Lakes Travis, Buchanan, Georgetown, and Stillhouse Hollow provide of Round Rock water?	10	11	12
13	14	15	16 Sprinkler Spruce-up A bit of maintenance goes a long way! Always inspect your sprinkler system for leaks.	17	18	19
20	21	22	23 Don't stress about a stressed yard! If your yard is looking stressed, just add 2 minutes of watering to the stressed areas!	24	25	26
27	28	29	30 Have you been watering the sidewalk? It is a great time to check if your sprinklers are angled to only water your yard, not the sidewalk!	31		

AUGUST 2025

ROUND ROCK OUTDOOR WATER TIPS

End the summer with a splash
by watering wisely

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
	1 Happy Labor Day! Let your sprinkler system have the day off too!	2	3 Life is full of turf decisions Tired of dealing with grass (turf) in your yard? Learn about different landscaping opportunities and rebates on the Round Rock website	4	5	6
7	8	9	10 Don't let good rain go down the drain If there is rain in the forecast, wait to irrigate. The more you water your yard, the more dependent it becomes on water.	11	12	13
14	15	16	17 Healthy soil is happy soil! Keep soil healthy and add mulch to prevent water loss through evaporation.	18 Happy National Water Monitoring Day! Celebrate by checking your irrigation systems for leaks, or broken sprinkler heads!	19	20
21	22	23	24 Tired of mowing? Don't cut your grass too low and leave the clippings to act as mulch and fertilizer. Your yard will be healthier and need less water!	25	26	27
