- Exposure: Plant in Full Sun to Part Shade for best results. (Minimum of 5 hrs direct sun per day)
- Duration: Colorful blooms from Spring to Fall, plus year-round foliage interest

## GREGG'S MISTFLOWER

*Conoclinium greggii*

<b>Plant Type</b>	Perennial	<b>Bloom Time</b>	Late Spring through Fall
<b>Mature Height</b>	2'-3'	<b>Character</b>	Deciduous
<b>Plant Spread</b>	3' +	<b>Light Requirement</b>	Full Sun to Part Shade
<b>Flower Color</b>	Powder Blue	<b>Water Requirement</b>	Low

### Description

If you were to choose one plant for attracting butterflies and native pollinators, Gregg's mistflower is hard to beat! In late spring through fall powdery blue flower clusters almost completely cover the tops of its lacy green foliage. It is so adaptable and easy to grow, it often forms a tall groundcover which works as a virtual stop sign for fall migrating monarchs.

## PITCHER SAGE

*Salvia azurea*

<b>Plant Type</b>	Perennial	<b>Bloom Time</b>	Summer, Fall
<b>Mature Height</b>	3'-5'	<b>Character</b>	Deciduous
<b>Plant Spread</b>	2'-4'	<b>Light Requirement</b>	Full Sun to Part Sun
<b>Flower Color</b>	Blue	<b>Water Requirement</b>	Low

### Description

A clump-forming Texas native perennial known for its whorls of two-lipped, azure blue flowers. It grows easily in average, dry to medium, well-drained soil and prefers sunny locations. Drought tolerant and deer resistant. For a more compact shape and to prevent stems from flopping, cut the plant back by up to half in late spring. Stems are more likely to flop when over watered.

## 'HENRY DUELBERG' SAGE

*Salvia farinacea* 'Henry Duelberg'

<b>Plant Type</b>	Perennial	<b>Bloom Time</b>	Spring through Fall
<b>Mature Height</b>	2'-3'	<b>Character</b>	Deciduous
<b>Plant Spread</b>	2'-3'	<b>Light Requirement</b>	Full Sun to Partial Shade,
<b>Flower Color</b>	Bluish Purple	<b>Water Requirement</b>	Low

### Description

'Henry Duelberg' produces highly ornamental upright spikes of dark lavender blue flowers that bloom spring to fall. This wild-selected nativar is a reliable drought tolerant perennial and has become somewhat of an industry standard for its long-blooming super showy flowers, adored by gardeners and pollinators alike.

### WILD BERGAMOT

*Monarda fistulosa*

Plant Type	Perennial	Bloom Time	Spring through Fall
Mature Height	2-3'	Character	Deciduous
Plant Spread	2-3'	Light Requirement	Full Sun to Part Shade
Flower Color	Pink, Lavender	Water Requirement	Low

**Description** Also known as bee balm, this Texas native perennial is highly adaptable and produces long blooming whorls of pink to lavender flowers that attract a number of pollinators and hummingbirds. Its leaves have historically been used to make a tea, which is how it got its common name.

### FALL ASTER

*Symphyotrichum oblongifolium*

Plant Type	Perennial	Bloom Time	Fall
Mature Height	2.5'-3.5'	Character	Semi-Evergreen
Plant Spread	3'-4'	Light Requirement	Full Sun to Part Shade
Flower Color	Purple, golden centers	Water Requirement	Low

**Description** A native perennial aster that produces dazzling purple mounds of fragrant daisy-like flowers with yellow center disks. Easy to grow and provides an outstanding floral display in cooler months, just in time for the monarch migration.

### ZEXMENIA

*Wedelia acapulcensis* var. *hispida*

Plant Type	Perennial	Bloom Time	Spring
Mature Height	1.5' -2'	Character	Deciduous
Plant Spread	2'-2.5'	Light Requirement	Full Sun, Partial Shade
Flower Color	Yellow	Water Requirement	Low

**Description** A native perennial planted for a dense canopy of showy, mounding yellow flowers. Zexmenia is so easy to grow it is also referred to as a "miracle plant" because of its versatility, cold and drought tolerance and long blooming period.

### FOUR-NERVE DAISY

*Tetaneuris scaposa*

Plant Type	Perennial	Bloom Time	Fall
Mature Height	8"-18"	Character	Evergreen
Plant Spread	1.5' +	Light Requirement	Full to Part Sun
Flower Color	White	Water Requirement	Low

**Description** A low-growing native perennial that produces bright yellow, daisy-like flowers with four distinct veins on each petal, blooming from spring through fall. This drought-tolerant plant thrives in full sun, with little water. Its long blooming season and compact form make it a favorite for wildflower gardens and pollinator habitats.

### GREEN MILKWEED

*Asclepias viridis*

Plant Type	Perennial	Bloom Time	Spring, Summer
Mature Height	1'-2.5'	Character	Deciduous
Plant Spread	1'-2'	Light Requirement	Full to Part Sun
Flower Color	White, Yellow, Green	Water Requirement	Low

**Description** A native, perennial forb that serves as a host plant for Monarch and Queen butterflies. Has a spreading, open growth form with cluster forming whitish yellow star-shaped flowers with purple centers that also provide nectar for a number of native butterflies and bees.

### NARROWLEAF CONEFLOWER

*Echinacea angustifolia*

Plant Type	Perennial	Bloom Time	Late Spring to Summer
Mature Height	2'	Character	Deciduous
Plant Spread	2'	Light Requirement	Full Sun to Part Shade
Flower Color	Purple	Water Requirement	Low

**Description** A hardy, drought-tolerant North Texas native perennial that features slender, lance-shaped leaves and distinctive drooping purple to pink daisy-like flowers with a spiny, cone-shaped center. Blooming from late spring to summer, it attracts pollinators like bees and butterflies.

## Rattlesnake Master

*Eryngium yuccifolium*

Plant Type	Perennial	Bloom Time	Late Spring through Fall
Mature Height	3-5'	Character	Evergreen
Plant Spread	2-3'	Light Requirement	Full Sun
Flower Color	White	Water Requirement	Low

### Description

Often hard to find in nurseries, this striking North Texas native evergreen perennial is a bit of an enigma with its unusual yucca-like foliage and showy white thistle-like blooms. Spring, summer and fall this tough Texas native provides a striking show for both people and pollinators.
