Happy New Year!

We're excited to keep you informed about everything related to water use and landscape.

Residential Water Use Survey

Round Rock is a participating partner in the Water Research Foundation's nationwide study on how water is used at home.

Please help the research by participating in this short, anonymous survey.

Questions pertain to water-using fixtures and appliances in your home or apartment. The multiple-choice survey takes about 6 minutes.

Win a Free Rain-Freeze Sensor!

Does your automatic sprinkler system have a working rain-freeze sensor? If not, enter for a chance to win a wireless rain-freeze sensor.

Sensors will automatically shut down sprinkler systems during rainy or freezing conditions.

Three winners will be chosen at random. The last day to enter the contest is **Friday, February 14th.**

Help Your Landscape
Fend Off a Freeze

Our customer water portal provides notifications by text and email if your water meter registers water use for 24-hours without stopping, indicative of a water leak.

Learn how to sign up for those automatic notifications on the [utility billing page](#) under the section called **Consumption Portal FAQs**.

On the portal, you can view your hourly, daily, and monthly water use.

Hard freezes are few and far between, but when they do occur there's a great gnashing of teeth over how to protect plants — and how to clean them up afterwards.
