Learn about Summer Dormancy in Lawns

After a wet, cool start to summer, the heat has returned. Many lawns stayed green with little irrigation, but as dry weeks continue, yellowing grass may appear. Don't worry, this is often summer dormancy, not death. Dormant grass conserves energy and will green up with regular watering. Keep conserving water and watch for signs to know the difference!

Year-Round Watering Schedule

Property Ends in	Water Days
0 or 3	Monday / Thursday
1, 5, or 9	Wednesday / Saturday
2, 6 or 7	Tuesday / Friday
4 or 8	Sunday / Thursday

Watering must occur **before 10 a.m.** or **after 7 p.m.**
